ABSTRACT: -

In this Fact paper working of human mind (or brain) are given means what human mind (or brain) can do to others with only mind(or brain) nothing other than that, like synching with one mind (or brain) to other may be by emitting any wave or particle is given :-

Keywords: - Human brains powers by synching, means brain to human synching may be by emitting some wave or particles or any matter. Or by extracting or some other processes.

Introduction

In today's world neuro or brain science is getting advanced. Somewhere we are hearing brain hacking and somewhere we are hearing that any person known exact that what is going on other persons mind(or brain) or his information like that any person see any illusions sometimes but he thinks that how it happens. In news channels or any channels comes that any person watched any soul or sometimes it can be disorder/mental diseases. But in this Facts paper the extra powers of brains or concept of extra powers of brains are described.

Concept of extra powers of brains.

From human history to now many sayings are and some call it as superstitions. Like or mainly about Gods or any Saints or humans also that they are tricky, magical or miracles. But if we go through science eye some are scientific things. Extra powers of humans brain describes that or this paper describes that some things which human thinks that they are magic or his any disease or his any mental/health defect, it is or it would be/could be by this powers, means someone else is doing this. It would modify human. As well as it can modify human species or whole living things.

Business analytical

In today's world's education new and modern as well as the topics which will modify humans are the most required topics are required. As well as in laboratories the topics which will modify human and the most required. So this paper can be published in many syllabus books as well as in many science books and can give a different thinking to human. As well as this can give a different thinking to (or can be a part of) legal system, police system, defence system, privacy of persons and daily life of persons and can give a different way to live.. Main paper(1)

To or on others(Brain(mind) to brain(mind) synching) :- Can insert feelings.

- Can show illusions or pics or videos.
- Can talk without mouth or any other protocol, only with mind(or brain).
- Can sense surrounding things.
- Some physical effects or environmental effects mind or brain can do (can be for attacking or can be for defence).
- Environmental effects can include making chains also like water chains etc.
- Can communicate through internet or telecom or any machine suitable without any guessing or assumption
- (Aliens and man communication protocol can be with human mind(or brain) only but if human can do this through network or any machine like satellite, or any Suitable).

- Can forget someone by inserting or doing something in his mind(or brain) with only with our mind(or brain) or any our part. But works doing on others if their mind(or brain) or their (means unnamed power described in paper we can name it also like we call burning process as 'burning') will not oppose and sometimes or all times human can detect that who is doing this effects or who done it.
- Can control other person or persons.
- Can change mental state of other or others.
- Can know what is going on in other person's or persons mind or brain.
- Can know memory of other person or persons.
- Can speak or it can hear others.
- Can create auto talking or with images and feeling and sensations Like autopresentations.
- Can move any body parts like artificially moving.
- Can change inner situations like temperature.
- Can do agonising or extreme pain.
- Can do many effects as we know that there is satellite in human brain.

Can insert any hearings if any person is taking information from us. Or any other way.

Applications of FACTS :-

These facts can for all human species and are by synching (means like one mobiles connect by emitting radiation or em wave, we can say may be brain or human body but mainly human brain emit waves or particles for doing these) :-

****By illusions: -***

Man can show illusions for misguiding others watch on us Or

If any criminal's watch on us then we will escape from him by showing any illusion like we as any other person's image or changing surrounding scene and showing other scene.

In defence means military, the military man can show him at slightly distant place for misguide or for missing his target from him(the military man who is showing illusion) of his enemy.

Like that in machine means in mobile phone or any communication device or internet device, or devices like TV or on the screen of mobile, computer etc. and in things like mirror can possible in that(means like pictures or videos), then he can misguide him even if he is out of his range of synching of his brain and others brain or human, this illusions we have to show inserting illusion particles from screen of devices.

As well as any person can show him as a bigger than his original size and he can show any animal to other especially any predator for scaring him and any non predator for some other person for calling him closer as a trap.

And any person who is unknown from all species or thing in the world then any other person can show any imaginary thing or species which does not exist in this world and for believing in it (for believing in it he will change his mental state, mental state or feeling like original effect which will be described in the effects - changing mental state or inserting feeling.) And illusion of invisible or making us or others invisible by combinations of all surrounding around us.

Illusions like dreams can also shown. Can show invisible to others.

Like that at many places he can show illusions They are described below :-

At or on road any illusionary vehicle, at Sky any illusionary vehicle, while typing or on screen other words, somewhere illusionary fire is or somewhere is illusionary snow or Any weird effects like comic effects like car is flying or any dog is flying blah blah blah.....

****By inserting feeling: -***

By this effect any person can insert feeling of happiness, sadness, fear, or feelings like disgusting, anger sometimes excitement, amazing, attraction. Sometimes or upper described feelings with humans senses hand, legs, eyes, ears etc. or combinations of then. And feelings like seducing or depression.

And inserting or by inserting forgetting anything from brain of the person.

Feelings or emotions teasing others or hitting other person or temperature of other person or inserting that his one part or any body sense is paralyzed or diffusing him means making him unconscious. Or many feelings or sentiments and combinations of them or which will discovered in future by any medicines or drugs.

*Can talk without mouth or any protocol like sign language by senses only by mind(brain) synching: - This is by combination of upper effects.

*Can sense environmental things: -

By this effects man can sense environmental things or things around him (things in nature)

Things like behind him is what and sometimes who or which thing or which animal, Like that sound him is what which he can't see he or she can sense. Like that he or she or any person can watch anywhere and he will know at other place is who or what.

*And some physical effects and environmental effects (effects like covering around thing) :-

In this effects man cover around things like air or sometimes things but which are in capacity of brain or senses having these effects.

By this effects any person can attack on other or defence to attack by surrounding environmental things or surrounding matter. And of two or more person will do it together on other then this effect can more powerful. Sometimes person can damage things by this effect.

*Can communicate or send data through machine like mobile phone or computer or satellite (if suitable and any suitable):-

By this effect anyone can communicate or send data by synching brains and they can talk with each other or they can do the effects described in this paper or book.

And can send signals through satellites to aliens by without language talking and showing illusions or inserting feelings or showing things. Like calling them or knowing their things.

Or he can know by this that who is where and that place and things are what.

****Any person can control other person or persons by this synching : -***

By this effect any person can control other person or persons and he will make him doing things which the controller want to do. Some dangerous things like make the target kill other person or make him suicide, rape etc.

As described that by watching target and around him, he can control.

****Can change mental state by synching or we can say inserting :-***

By this effect or feature human can change mental state of other or others by synching. Like sometimes human do meditation and they feel calm may be their mental state feel calm like that human can change mental state . This effect can be advantageous like anyone will suitable for the mental state inserted by other or sometimes it can be for disturbing mental state of other. Can stop any criminal or terrorist from doing crime or terrorism. Terrorists or criminals can make other people terrorists or criminal by changing mental state of them. Can male slaves by enemy country in war or by any gangsters or terrorists. Can make mental state like overdrunk wines, drugs etc. Can kill.

****Can know what is going on in other person's mind(or brain) : -***

By this effect human can know what is going on in other person's mind or brain and he can do some tricks to misguide his target and can do combination of upper effects. And he can know what is target thinking or his feelings while it or his mental state while it or can predict what target will think after knowing targets current state of thinking.

Like that, person can take precautions of what target will do after his current thinking or plan means any thieves or any criminal. Inverse of that anyone can plan what person will do and then what to do to take action of his plan like crimes or any other works.

*Can know memory of other person :-

By this effect any person can know targets memory stored in him, not full but some sometimes all. By this effect or feature human can know memory of targeted person or many persons. This feature can be harmful because anyone can know informations means confidential informations like target is who, he lives where and some other information or like this informations. But sometimes close persons of target can know some good information and then they can guide them or tell them about their mistakes or they can tell them what to do. Like that the person can copy feelings or mental state or inner state.

Through machinery effect means through internet or any other network, sometimes we can do many machines effects. I know many interested call me. Like that if would possible he can watch on many men at a time through machines. Like that anyone or human or any thing who can do- can remember or take or know other address means network protocol address or any other and he can do it with his machine. Like it he can change others inner state.
Note :-

These effects are possible if Infront of person or targeted person will not oppose if he will in range of the brain synching or in these effects. Like it these effects can be on many persons means what can be the capacity of humans brain. Note :-

Upper things are possible if the targeted person will not oppose or his mind(or brain) will not oppose.

***Can speak with others or hear others: -**

Our brain can speak with others or hear others things or talking. Like that our brain can hear talking of many people or characters created by them with images and we can talk characters created by them.

-By this effect or feature we can make or our brain can show autopresentations or pre planning or any rehearsal or what will happen means our plan or can create scene of any situation or helps in understanding any book.

And this effect can be for any time means one hour or two hours or for any much time continue leaving sleep. This effect or feature can be with feeling and mental state suitable for it or by inner state changing.

Sometimes our brain can show this effect or feature in sleep.

***Can do sensations: -**

By this feature brain can do human body sensations like cold or water fell on us or any other sensations like this.

***Can move body parts like artificially.**

By this effect or feature brain can move body parts of body like artificially. It can be beneficial in sports and any other work like driving etc. And can hurt or kill.

***Can change inner state like temperature :-**

In this effect or feature human's brain can change inner state of human or it's. And sometimes brain can change some part's temperature or some parts' temperature. By doing this effect human's body can be familiar with any work which have to do different from his body temperature. And sometimes for any habit with changing mental state of liking/like it or combination of upper effects or features. It can to increase temperature or decrease temperature.

***All these effects can temporary or permanently also. Funny :-**

And sometimes our brain can make us mouth smells and sometimes it smells us that or any other smell like that, means it let us smell any smell Or can smells other person. In this synching Our brain can do sex with other or many.

or we can experience sex ourself with all these features or effects or some feeling like in real and with all senses mainly sexual senses. And our brain, Sometimes our brain shows us playing games by our participation by our senses like vibration and like that it can feel any scene like war or sports like football, isn't it funny? Ha ha ha.....

Can be proved by various methods.

Like that human brain or human can talk with many brains or persons even though he is doing any work, and without hearing to the main person(applicable for all effects also.). These effects can very quickly means within a second or in milliseconds (time not described). Like that human or human brain can make Infront of person whole new means doing death of his original character and inserting new character or characters by these effects. And sometimes can do death also but if it is possible. Or control others and can make him/them do work as he want(means the controller want or if the targeted person/persons want work by the controller). Can know inner state.

Sometimes or anytime or all time human can change size of their body parts means which would possible means skin or any other possible and same of others also. And sometimes he can do these effects as reflex action or reply of any action by very cruel way. And can capture images and show same to original human or humans., and to many humans. Like that human brain can make the human whole new character or can adopt many things or give many actions and things(by giving by taking from others and watched anywhere). As well as he can delete or forget or hide any pre-planned work.

For escaping from these effects - to or on others written upper and described, human should invent or make any device or find anything or existing thing(things) preventing these waves or particles or matters which is reason of this. Bad effects can be very much bad be careful, aware and

which lab or organisation want to know contact me. Like it human can hang other human by it. And can change whole inner of it (means inner states etc.).

Sometimes human can forget his original memory or hide it(or all the data with all feelings, inner states etc.) for the reason that others should not know it by the upper 1 effect described. And he can make any false scene or memory or memories for the reason that others should get confused while taking it that which is the correct and for the reason that they want to show or misguide the Infront of person.

Conclusion: -.

So, these facts are beneficial human in many fields and many fields in future. Can be research because I experienced it.

METHODS OF PROVING CAN INCLUDE TAKING HUMANS IN RAYS OR WAVES LIKE X RAYS AND DETECTING THE TRANSFERRED AND READABLE PARTICLES AND TAKING HUMANS IN PARTICLES OR ANY MATTER (OR IN FUTURE) SUITABLE FOR IT AND

DETECTING IT. Or extracted by human. I know many, interested contact me.

For any particles or waves

Suitable (like internet or telecom waves or particles). As well as in sports and in acting, dance, martial arts or other sports or other works etc. Like stops sleep and work continuity and in studies or in class it can help. And it can listen songs do mood fresh and other effects also. Change our choices like places and time to time. Can change imaginations as well as helps in imaginations. Or can take from others and enter the main body in another world. Can hit films, can hit models and distract sportsman in sports by these effects.

BAD EFFECTS - BAD EFFECTS CAN BE IN MILITARY LIKE FIELD OR FIELDS - THAT THE PERSON WILL KILL IN FRONT OF PERSON AND HE OR SHE WILL INSERT FEELINGS, MENTAL STATE OR ANY ENERGY LIKE UNCONSCIOUS OR PARALYZED OR ILL (SOME DISEASES OR ALL) OR HE WILL INSERT FEAR, HE WILL TAKE ENERGY AND THEN HE WILL KILL HIM BADLY BY INSERTING ANGER FEELINGS AND ETC.

As

well as he will be so forward in cruel type in these effects or by this effects that in revenge he will do him in prison of cruelty for revenge. By any machines or any other way. Like that he or they will change his whole character and mental state or inner state for changing his whole character for becoming him on our side and then he will make it to kill or work for them. Just like he will make his whole resurrection (death of original character and making new character) by this effects. Or steal their plans by this effects. As well as weaponry machinery effects like on drones or many like hide it or make it invisible or distract it by showing anywhere. Like that it can remove whole fear from him totally and make him courageous and brave and a fighter.

But can sense invisible characters by this. Many bad effects are but soldiers and fighters should be aware of it as well as know it for future.

Through internet and telecom it happens or we can do. For through internet and telecom that particle or wave goes through transmitter and receiver by receiver. And from optical fibre also. From cell towers also. And many machinery effects like on computer.

Like that we can sense trees and leaves and can make bodyguard by these effects, and can do tormenting or agonising, scare and killing by this synching and effects. And can change characters like prostitutes and gay, lesbians. Opposite to that the can make negative character positive. And in business field stealing business strategies and inventions. It can give protection to other countries like USA gives protection to Saudi Arabia and we can scan or dead or do these effects with whole World. Through internet or telecom one or many men do or scan these effects and like one will send his wave through mobile and insert in another man or men and connect to start doing these effects and can dead people. Through internet telecom he will take one brain or its information and then he or they will connect with other brains and then do these effects. And then he will take information like bank account number, ATM card number and many personal information and can control him or call him anywhere or his desired place means for crime like rape, selling girls etc.

And in business many scandals can happen like kill and take or stealing and taking information.

In some religion like Islam and Muslims somewhere Devil is means hell is etc. or in Christians is Devil is means whole world's death, resurrection (here means change or death of character and making new character), wishes and aims of devil etc. and Buddhism, etc. and other religions are also some ideas like miracles through internet and telecom. Many fields like depended on internet and telecom share market (converting shares) companies and many fields these are.

Some business mafia red laws can be also like – kill and take information. Resurrect and take information, stealing Intellectual Property (in war like conditions also), agonising.

Call for job and kidnap or change by these effects. And from internet from anywhere, international.

And police can be- License to kill from one place to another or one region to another region or one country to another another country, scan and see memory, change character, Can do encounter from one place to another. Can recover changed mental state by others or criminals, military, terrorists etc.

Through internet and telecom and in society from country to country (means in houses etc.).

- Can give pain to inner bones and veins, body parts, brain, May be feelings.
- Through internet it happens and through telecom it happens.
- Can do these synching and these effects at military weaponry places of enemy countries etc.

- Can show dreams in sleep. Like ghost horror dreams etc.
- And can do artificial inner effects like vomitting etc. On others also.
- Can change character of person like a wise person criminal or video versa.

Through internet it happens and through telecom also. Sometimes can protect anyone or many by internet or communication by keeping watch or can watch his body by this. Can make dumb or deaf to other person.

Can protect by these effects to others.

Can hijack trains or plains by these effects.

Can live another person's life by entering him or can taste or smell or entering in his home. Can watch looks of other persons or sense their figures by these effects.

Can do sex by these effects.

Can copy looks from region to region. Can dead many one or whole world by dead waves or particles in internet or telecom which can kill whole world but as a protector also. From country to country. In war. And marriages, girlfriends – boyfriend pairs bond can be done byunder these effects timing, information etc. can be recorded. And child once memory taking can happen from big peoples. Touch can happen. In collages also can happen. He can enter in other's home also by internet and telecom and live with him.

- Can kill from one region to another.
- Costumes For escaping from this or preventing this includes any materials dress or costumes or jammers, and things for stopping these synching and effects. And softwares and systems and new computer systems can also different and packed means safe houses and offices, labs, planning hall, military planning hall, police planning hall etc. devices for police and military for doing it faster
- Can do conference with many at a time at different places with fast speed like GD, and confidential military or political plans or or converting votes with illusions, changing mental state etc. And can damage banking sector and online money transfer sector (can send money from enemy countries to our country in war like conditions and by terrorists or mafia or underworld also by controlling or changing mental state etc.) like sectors. And can do blind, and sick and deaf and dumb etc. Can stop breathing.
- Can do these effects with many at a time.
- Can Hack Computer Mobile, TV And Other Like Machinery in some manner.
- Can block or stop target's these effects and while doing these effects also.
- Can do these effects while doing another work.
- All these effects we have to do by inserting particles(or wave or anything other) or we have to put desire (we have to put desire) (particles or wave or anything other) or we have to give command in target's parts or target's brain or target, of corresponding work which we have to do(like for illusion- illusion particles).
- Can watch, hear, speak etc. By corresponding senses of target person.
- These synching can for whole world at a time.
- Can give extreme pain to target or targets Or target parts like kidneys (different types of pains or extreme pains each time of doing).
- Can transfer one person's memory,inner state, mental state, to other(to many).
- Can transfer what's going on on other's mind(or brain) (or to many minds).
- All these effects can known to doer or not known to doer only to his brain while doing.
- Can insert memory of us in other person or persons by internet or telecommunications.
- All these effects are can be on many persons at a time.
- Can keep watch on other or others.
- Can do these effects from one person(or target) to other or others (or from many to many).
- All this synching and effects can possible from any body parts of doer by connecting it to brain.
- Can connect any body parts of target or targets to brain and other body parts for doing these effects (like from eyes etc.).
- Can watch inner body.

-
- Can watch synching and effects particles going in brains and machines and coming out of brain and can watch who is doing these effects on whom(excluding knowing memory and what's going on in another mind (brain) and on which machine by his or her brain. It is automatically.
 - For artificial brain particles also or brain particles like particles also.
 - Can know what other person or persons is doing.
 - These effects can done passing the particles or waves from one person to other and from many to many.
 - Can off cell towers (and satellite system) or internet or telecom systems of enemy country or region in wars, Safety systems or in any criminal or terrorist attacks.
 - Through any internet and telecommunications machines can happen.
 - These synching is automatically by internet and telecommunications and memory knowing and knowing what's going on in target'mind or brain is automatically by internet and telecom(but to brain not to doer).
 - All these effects can done by combination of them.
 - Can talk by changing voice.
 - Terrorists can do terrorism by this synching and these effects.
 - Criminals can do dangerous crimes with these synching and these effects.
 - Can make killing or agonising etc. contracts by this synching and this effects.
 - Can show pictures and videos in internet and communication devices like computer TV etc.
 - Can know memory or person if done plastic surgery (especially any criminal or terrorist).
 - Can know planning of any bomb blast or any illegal deal of mafia etc.
 - Can make contacts or illegal contacts by this synching and effects.
 - Can do disguised by illusions and changing mental state.
 - Can do these synching and these effects in sleep also.
 - Can show pictures and videos.
