ABSTRACT

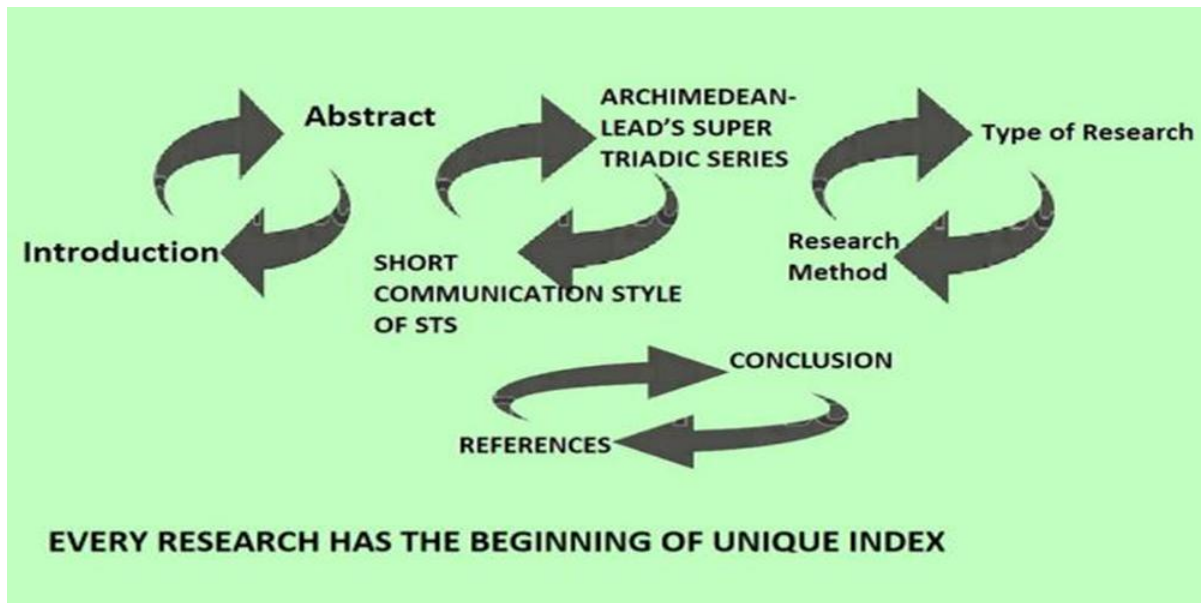

The knowledge-content crafting series of Nature's University inquire into the fascinating male sperm of life & female egg of creativity's pivotal instances of union and intersection for human avatar with Brain, Heart & Spine. It is concise communication style that precisely captures essentials of wonderful process of Nature's University, offering broadly engaging abstracts called Lovely Wide Abstracts. When brought to light and likes of public domain of innovative research production, it deals with numerous disciplines conveying scientific sense of innovatively qualifiable series on Human Brain/Heart/Spine's Engineering & Technology.

This context recalls ancient Greek philosopher Zeno of Elea who had attempted to solve the problem of summing an Infinite Series to achieve a finite result but rejected it as the permanent impossibility with the result of Zeno's paradox. Aristotle proposed philosophical resolution of Zeno's paradox to which practical shape was given by Archimedes through Archimedes-method of exhaustion that an infinite number of progressive subdivisions could be performed to achieve any finite result. Following Archimedean lead, "Nature's University commissioned Human Brain/Heart/Spine's Engineering & Technology" is a scientific production with justification of Science & Scientific Multi-disciplinarians' familiar parametric epithets that one attaches to applaud to saturate oneself with Science's walk-about-talk-about being the just void between Human vs Ultimate Realities.

This research-acclimatization to pure Abstract-orientation is based on Archimedean-lead yielding finality or finiteness as applied to the lonely wide "Human Physico-Astral Realism", assorted and abtorted, being only way out of the remote infinity. Holistically, an Archimedes Finite Result Method applied version to Human Being Avatar.

2. INTRODUCTION

What constitutes the one unique-title-theme of Nature's University commissioned Brain/Heart/Spine's Engineering & Technology as the knowledge-content crafting series? The material concerned has come to see light of the day through the public domain which services in its intended capacity as a medium for propagation of Research vide the already published Super Triadic Series (STS) for research productivity as detailed and listed hereunder to account for instantaneous comprehension followed by substantial validity worthy of research for a breakthrough in the World of what is to be called Knowledge-infinity.

Unexaggeratedly stated, the Nature's University commissioned Brain/Heart/Spine through Engineering & Technology's knowledge-content crafting series in short communication style's lovely wide abstracts of the lonely wide Human Physico-Astral Realism has been abstrorted. It is not going to be easy or difficult hyperbolic and/or hypothetical contemplations saying that the historical past-backs of the Planet Earth sounds 'infinite' *ab initio* and/or landing us on the Infinity called by-gones in history! But, the collective odd and even efforts of aggregate wisdom of the mankind in coordinated manner of team-spirited confrontations with rational challenges which are like stepping-stones that led to successes all the while from civilization to civilization subsequently through human generation to generation on geo-muddled Earth. This is only a bit of the large-scale realism and does not end to stop here. The Universe has its all-time-mate, the Nature and together, they have the Nature's University in indulgence of designing and delivering actively lively creations like us and many more of such kind akin to us as well as alien to us but always surrounding us in variously formatted energized structured-life-force. For example-in-brevity, it was so common too in the pre-historic ages to refer to Science (Scientia) as Theology or Theology as Science *per se* while the Universe was immeasurable in respect to a human's capacity of understanding and that humans would never be able to comprehend the Universe, the Nature & the Nature's University referring to the Ancient Egyptians, Persians, Syrians, Assyrians, Greeks, Indians, Jews and Kabbalists (Thomson, 2008, p54).

3. THE ARCHIMEDEAN-LEAD'S STS (SUPER TRIADIC SERIES)

The ancient Greek philosopher Zeno of Elea considered the problem of summing an infinite series to achieve a finite result, but rejected it as impossibility (Lindberg, David, 2007). The result was Zeno's paradox. After Zeno's days, there came the Aristotle's proposal with a philosophical resolution of the Zeno's paradox but was apparently left in dark unresolved until taken up by Archimedes. Here, one should notice that there is a change of generations of the mankind from Zeno to Aristotle to Archimedes in the History of the Earth's civilizations.

It was through Archimedes's method of exhaustion that an infinite number of progressive subdivisions could be performed to achieve a finite result (Kline, 1990).

Therefore, the respective Abstracts of Research Papers go to serve the titled cause and purpose of "SHORT COMMUNICATION STYLE'S LOVELY WIDE ABSTRACTS" instrumentally. Hence, altogether a comprehensible reproduction in place, size and shape with a difference of space, time, and interest. And also, certainly lead to constitute another fashioned anew research spectacle on the lines suggested by the Archimedean-lead established aforementioned.

4. TYPE OF RESEARCH

This type of Research becomes an Applied Research since indulging in creation of applicative relevance to the Archimedean progressively sub-dividing on hand what is existing as an immediate impossibility posing in the nature of infinity or its disguised forms.

5. RESEARCH METHOD

The Archimedes Finite Result Method.

6. SHORT COMMUNICATION STYLE OF THE STS

The job of the main text of the Short Communication Style is like that of a defrocked mirror to the face providing visible Abstracts with respective Titles as carriers of thematic alliances in successive progressions of revelations running deep into the Nature's University commissioned Brain/Heart/Spine researched through Engineering & Technology's knowledge-content crafting series via pre- and post-Rotational Views Dynamics which all resembles that of still waters running deep in an Oceanography's skilled-mysterious-exploration-Project Study .

6.1 Paper one's Abstract:

Rotational View of Human Brain's Split Engineering & Communicative Hemispheric Technology Lead Bio-Rhythmic Yogis to the Soul & Supreme-Soul's Bi-Lateral Seaters of Composite Mythological Partnership

Prominent scientific-cum-spiritual truths cannot be hidden any longer in this 21st Century.

As educated human beings, many of us believe in the Scientific Truths because basically by the time we attain certain regulatory-level of standards in the field of academic education, it becomes an influence within our grasp and grip that the scientific truths do matter to us as human-advancement-contributors. Several kinds of specializations in Sciences & Technologies in particular and many applied fields of adventures cause the said influence. After all, the human body also appears to have been a team work of consolidated Departments of Nature's University situated far away in the Universe and out of bounds in human mind-set locations.

This Paper presents on the basis of bio-foundations and physical observations of the clock-wise and anti-clockwise rotational viewings of human biological brain as a shapely object of Nature's intrinsic yogistics imprinted in spiritual coinage of the symbolic secrets of balancer-laws of Nature's

instrumentation. Evidence to this is the independent 'Brahma-Randhra-Hole' located on top as the Head of other Randhra-Holes which all from within are bio-mechanically connected sub-structures.

The titled result from knowledge of replayed-recorded rotating images helps make explicit the implicit hard talk in spiritual fashion of hemispheric mythological accommodation that the yogistic spiritual truth of the 'Soul & Supreme-soul's Composite Mythological Partnership & Bi-lateral Seaters' is disclosed by the 'Rotational View of Human Brain'. Illustrations are in an economic mode of picture-perfect-limitation avoiding usage/ influence of lavish mythological Greek/Latin as well as India's Sanskrit/ Pali Scriptures/Grammar/Interpretations.

6.2 Paper Two's Abstract:

Rotational View of Human Heart's Cardiac Engineering & Acoustical Lub/Dub/Pause Dynamo Technology Lead 2-in-1 Booster-Principle of Consciousness-cum-Soul-seater within Bio-Kinetic-Architecture from Nature's University

English idioms using the noun heart have spiritual sense to convey. For example, take it to heart & learn by heart. Background to this is that intellectuals during ancient periods attributed the locus of the human soul to heart, while overlooking role of brain which is zenithal. Several references to heart as the center of cognition for execution of various cognitive processes were labelled as Cedar Heart, Lily Heart, Spherical Heart, Heart Proper, Physical Heart, Cardiac Heart and at one-point, Cerebral Heart. Very recently in 21st Century, the Spiritual Heart.

The crux of the matter is while human heart is the size of human fist, the old think-tanks had maintained that heart constituted the soul-seater & center of consciousness, evidentially. Later-emerged thought-leaders disputed ascribing spiritual status, applying simple mindedness from scientific angles. Modernity virtually questioned brute spiritualism's heart serving consciousness & consciousness awakening.

This Paper serves the purpose of a scientific-cum-spiritual-truth in proposition drawn from the non-scientific-cum-spirituality's depiction of the heart. By way of originally researched observations, perhaps unwarranted before 21st century, this research reconciliates differing schools of thought with each other without multiple eruptions of friction between the non-scientific and scientific schools. Hence the titled result from "Rotational View of Human Heart's Cardiac Engineering & Acoustical Lub-Dub-pause Dynamo Technology Lead 2-in-1 Booster-Principle of Consciousness-cum-Soul-seater within Bio-Kinetic-Architecture from Nature's University" as such must have been designed by the Nature's Instrumentation obviously and frankly, beyond imagination. Still, there might be many un-knowns & un-seemed. Prominent scientific-cum-spiritual truths cannot be hidden any longer in this 21st Century.

6.3 Paper Three's Abstract:

Rotational View of Human Spine's Serpentine Engineering of Anti-Shock Disks & Sensorial Centers Technology Lead to Paramount Astral-cum-Physical Body Energy Climax from Nature's University

Entire civilizations may come and go on our Earth but gains of knowledge-enlightenment have been left behind for sake of subsequent civilizations. Enlightenments concerned represent civilizational value for creation of knowledge-values through unique processes of theories & practices. For instance, intellectuals during ancient periods attributed the locus of the human soul to the heart as the center of cognition and identified the brain as nodal center of consciousness connecting sub-structures within human body. Given the mediums of the engulfing Nature & the Universe, present day civilizations across Globe stand quagmired in the philosophies of the Almighty Gods/Goddesses, Religions, Spiritualisms, Rebirths, Reincarnations, Souls, Supreme-soul, and Multiple Universes of distinct Natures in the midst of diametrically developing self-reliant Multi-disciplinary Scientific Fields as the human-advancement-contributors.

This Paper finds exit to quagmire via accelerated promotion of Developmental Research in Combinatorial Science & Spiritualism's relevance. A level playing field with human players representing Human Universities, Nature's University & Universe will produce harmonious and stable balance. For example, combinatorially flavored "Rotational View of Human Brain's Split Engineering & Communicative Hemispheric Technology lead Bio-rhythmic Yogis to the Soul & Supreme-soul" & "Rotational View of Human Heart's Cardiac Engineering & Acoustical Lub-Dub-Pause Dynamo Technology Lead 2-in-1 Booster-Principle of Consciousness-cum-Soul-seater within Bio-Kinetic-Architecture from Nature's University" are the recently researched two in References.

The titled-result from researched-knowledge of recorded-replayed and rotational viewings of contents in images helps us to present making explicit an implicit hard talk in combinatorial fashion of accommodation of the Astral Body inside our physical body in functional relationship mutually with odd and even spreads of spiritual energy.

7. CONCLUSION

The Archimedes Finite Result Method furnishes crystal-clear insight and tacit support to structured and systematic formation of human beings with Brain, Heart & Spine inviting students, readers and researchers alike to delve into the intricate dance of life and creation. This dance also inherently features the Indian Yoga inclusively, impliedly and implicated.

Yoga's Realism uplifts Indian Spirituality & Massaging India's Viswa Guruhood asserting that 'Human Brain' seats Soul & Supreme-soul in Bio-yogistics of a body-cum-mind dancer-language-in-action. Simply put, it is called Yoga or the humanly Physical-cum-Astral language. Hence, Yoga

becomes the essence and role of existence of human beings throughout the journey of life streamlining human power or human energy as the partner of the Nature in the Universe while the latter is bonded internally within human brain, heart and spine. Through various Yogistic-techniques through the brain and heart regarded as the centers of reciprocal consciousness with the Universe.

All Research Scholars concerned with Science & Spiritualism might have by now appreciative of the fact that these are the divine-intended human avocations of a definite explicability, employability, exportability, exorability and sans deplorability. Had the human being not an incarnated Spirit unto himself/herself, the Faculty of Sciences or scientific abilities would not have been there in theory and practice with or without the establishments called Human Universities. The latter are a prompt to all of us designed and delivered of/by/for the Nature's University in the Universe given the fact that the human body does appear to be collective work of consolidated Departments in Nature's University far flung from human mind-set locations. The University & Universe signify to us affirmative facts of Science and Spiritualism, side by side of Physical and Astral realism as Opposed to Nominalism.

It is within human consciousness after seeing the shape of the backbone or spine that it resembles curviness of a distant serpent for comparative knowledge. So, one has to realize that the resemblance forms and runs into a lively attachment among life inside human, earth outside where snakes survive and the divinity overhead. Our spinal lining which is rather like a free hand drawn curve facilitates flowing astral energy and similar to a semiconductor that enables to and fro flows of thorough electrical energy. Astral energy constitutes the vital-force-ingredient from top to bottom of our body nurturing the mind and the spirit.
